HANA ELNEGERY

Front-End Developer

+20 101 588 3298 | elnegeryh@gmail.com | LinkedIn | GitHub

Summary

Front-End Developer specializing in Angular and TypeScript, with hands-on experience building and deploying responsive web applications through practical projects. Experienced in developing reusable components, implementing CRUD operations, and integrating REST APIs. Proficient in JavaScript, HTML, CSS, Bootstrap, and Tailwind CSS.

Skills

Programming Languages: JavaScript (ES6+), TypeScript, SQL

Front-End Development: Angular, Angular CLI, Components, Data Binding, Directives, Pipes, Services, Dependency Injection, Routing, Route Guards, Reactive Forms, HTTP Interceptors, RxJS, Signals, Lazy Loading

Web Technologies & UI: HTML5, CSS3, SASS, Bootstrap 5, Tailwind CSS, Responsive Web Design, Web Accessibility

APIs & Data Handling: REST APIs, HTTP Requests, CRUD Operations, Local Storage

Development Practices: Reusable Components, Clean Code, SOLID Principles, i18n & RTL (English/Arabic)

Tools: Git, GitHub, npm, Postman

Projects

Social Network App — Social Media Web Application Angular • TypeScript • REST APIs • Tailwind CSS

- Developed a responsive social networking application with user authentication, personalized feeds, profiles, notifications, and account management.
- Integrated REST APIs to support application functionality and user interactions.

GitHub: github.com/hanaelnegery1/Social-Network-App | **Live Demo:** Live Demo

Kanban Board Task Manager Angular • TypeScript • Bootstrap • Local Storage

- Developed a task manager with To Do, In Progress, and Done workflows, supporting task creation, editing, deletion, priority assignment, and due dates.
- Implemented persistent task storage using Local Storage and reusable Angular components.

ContactHub CRUD System HTML • CSS • Bootstrap • JavaScript

- Built a responsive contact management application supporting CRUD operations, client-side validation, and Local Storage for persistent contact data.

GitHub: github.com/hanaelnegery1/ContactHub-CRUD-System | **Live Demo:** Live Demo

D2D Car Service — Car Service Web Application Angular • TypeScript

- Implemented user registration, technician listings, service listings, and pagination as part of the front-end team that won first place in the ITI Summer Training Hackathon 2025.

Training & Certifications

Route Academy — Front-End Development Diploma Sep 2025 – Apr 2026

Completed practical training in front-end development, including Angular, TypeScript, JavaScript, reusable components, routing, forms, and REST API integration.

ITI — Angular Summer Code Camp Jul 2025 – Sep 2025

Completed a 150-hour hands-on Angular training program covering components, services, routing, guards, reactive forms, HTTP requests, and standalone components.

Education

Damietta University, Faculty of Arts 2022 – 2026

Bachelor of Arts in Linguistics and Translation, Polyglot Program

Achievements

1st Place — ITI Summer Training Hackathon 2025

Achieved first place as part of the team that developed D2D Car Service.
